

Questions to Consider

11/5/10

Joining Church

What are the sources of recruitment to church? From other churches, church background, new converts, not converted, occasional, through friends, adverts etc.

What helps them stay rather than leave soon after?

Leaving Church

Why do people leave church? Where do they go?

Types of People

What categories of people make up church and how do they affect it. Some more committed than others, some work more than others, some spiritual than others etc.

Likewise what types of people are there outside for the church?

How is "church" to be defined to contrast it with those not in church? Attendance at meetings, if so what and how often, membership, wider community?
